accomplish compliance assessment and certification platform and toolkit

Automating compliance and certification for Data and AI Operations from design to deployment

DRIVING AI & DATA COMPLIANCE IN INDUSTRY

The challenge

Navigating complex, evolving European regulations, such as the **EU AI Act**, **GDPR**, **Data Act**, and **Data Governance Act**, can create operational friction and delay rollout.

The solution

The **ACCOMPLISH** project delivers an automated framework that embeds compliance directly into your daily data and AI workflows from design to deployment, without slowing down innovation.

WHAT THE ALPHA RELEASE DELIVERS

1. The compliance digital passport

Maintain an up-to-date, audit-ready track record. Easily prove compliance to stakeholders with full transparency, saving hours of manual reporting.

2. Clear, actionable recommendations

Get clear instructions on what needs to be fixed to make your Data/AI operations compliant, keeping your timelines on track and preserving human oversight.

3. Privacy-preserving data operations

Accelerate data processing while ensuring full privacy and data sovereignty using on-premises anonymization and synthetic data generation tools.

4. Trustworthy AI Operations

Ensure your AI systems remain fair, secure, and legally compliant throughout their entire lifecycle, you protect your organization's reputation and liability.

REAL-WORLD INDUSTRY VALIDATION

Early testing will target sector-specific challenges:

Automotive
Edge-AI systems for in-cabin driver and occupant monitoring

Energy
Proactive flexibility-aware electricity network management

Aviation
Airport PRM (Passengers with Reduced Mobility) management

Manufacturing & Robotics
Workplace ergonomics management in a factory
